(1) Students should consult the online UNM catalog (http://catalog.unm.edu/), the online LoboTrax, or an advisor to obtain a list of acceptable courses to fulfill the core curriculum requirements. These courses may be taken whenever convenient.

(2) Admissions to the BSNE degree program requires completion of 19 hours of math, science, and engineering courses listed in the freshman year with a grade of "C" or better, and a minimum UNM cumlative GPA of a 2.3.

(3) Students are encouraged to take the Fundamentals of Engineering (FE) Examination during their senior year. This is the first formal step toward professional registration. See Website: www.ncees.org/fe/.

(4) The NE Technical Electives are chosen from a list of approved upper division nuclear engineering courses, and the Technial Electives are chosen from a list of approved STEM-related technical courses. See department website for complete list.

(5) Each course counted towards graduation must be completed with a grade of C- or better. Courses used to fulfill the General Education curriculum or Prerequisite out side of the major require a grade of C or better.

(6) Students must file a graduation application for the B.S.N.E. prior to the completion of the courses listed in the junior year fall of the NE curriclum (i.e. NE 315).

(7) For the UNM General Education Humanities requirement, we recommend picking a course from the GEN ED website with a globe next to it, as this also satisfies the U.S. & Global Diversity and Inclusion requirement.
